CLASS TEACHER'S REMARKS : Parampreet Kaur

Term1	Vivaan is an energetic and friendly child. He participates in all class activities and discussions. He needs to be a little more organized and alert in class while carrying out the instructions. Doing a transcription of 2-3 lines every day will help him in improving spellings.
Term2	Vivaan is an active and loving child. He expresses his thoughts well verbally, but needs to work on putting them into writing. He is a capable child and can enhance his performance by concentrating in class. With continued practice over the summer, he will be able to improve his reading and spellings. I wish him all the best for the next year. Promoted to Grade III.
